Introducing CutPRO® Clothing

CutPRO® Clothing is high performance, cut resistant workwear, designed to offer reliable, ultra-durable and thoroughly field-test protection to professionals at risk of cut-injuries in the workplace.

Made from our specialist **Cut-Tex® PRO** fabric, all garments offer outstanding levels of cut, tear, abrasion and puncture resistance, while being durable, lightweight and comfortable.

Used across the **CutPRO®** range, our highly acclaimed fabric provides exceptional defence against cuts and lacerations and withstands frequent laundering.

CutPRO® garments are fully **CE** certified and recognised by the **BSIF**, with a 6 month workmanship guarantee.

More Information

- Cuts and lacerations can cause rapid blood loss, infection, permanent damage to soft tissues and even death.
- These incidents cost firms' time and money, they highlight a serious failure in employers' duty of care; possibly leading to reputation loss and criminal prosecution.
- Cheaper alternatives often offer inferior protection, costing customers more in replacements while compromising safety.

CutPRO® Clothing Certifications and Associations

We are proudly **CE** and **ISO9001:2015** certified with **UKAS** accreditation. This means you can rest assured that our garments meet the standards necessary to ensure the safety of your team.

As our garments are fully **CE** certified, they can be resold in the European Union as Personal Protective Equipment (PPE) which meets EU standards for health, safety, and environmental protection.

The **British Safety Industry Federation (BSIF)** is the trade association for the Personal Protective Equipment (PPE) Regulation and has Primary Authority status with Trading Standards. As a **BSIF Registered Safety Supplier**, our products and services are certified to meet the appropriate EU standard.

About Cut-Tex® PRO

Cut-Tex® PRO is our premium, high-performance fabric offering excellent cut and slash resistance. Designed for comfort and durability, it is fully machine washable and boasts exceptional strength. This makes it the ideal choice for our CutPRO® Cut Resistant Clothing, providing reliable protection and long-lasting wear in high-risk environments. ***As you can see below, Cut-Tex® PRO performs very highly in all cut, abrasion, tear and puncture tests:***

Cut-Tex® PRO Performance Chart

> **Cut Resistance** - ANSI/ISEA 105-2016 Blade Resistance Levels A1-A9

> **Cut Resistance** - EN 388:2016 (TDM-100 Test)

> **Tear Resistance** - EN 388:2016 Tear Resistance Levels 1 - 4

> **Puncture Resistance** - EN 388:2016 Puncture Resistance Levels 1 - 4

> **Abrasion Resistance** - EN 388:2016 Abrasion Resistance Levels 1 - 4

CutPRO® Turtleneck Zipped Jacket with Tape and Breathable Back

CutPRO® Cut Resistant Jackets are manufactured using Cut-Tex® PRO fabric, offering outstanding tested and certified levels of cut, abrasion, tear and puncture resistance.
