About CutPRO® Cut Resistant Clothing

CutPRO® is an innovative brand of cut resistant workwear designed to protect professionals in the glass and metal industries from manual handling injuries.

Our products take cut resistant clothing to a whole new level. Our specialist fabric, Cut-Tex® PRO offers outstanding levels of cut, tear, abrasion and puncture resistance, while being durable, lightweight and comfortable. Used across the CutPRO® range, it provides the best possible defence against cuts and lacerations and offers workers personal protection they will want to wear.

CutPRO® is the result of extensive research and contribution from health and safety professionals of leading flat glass and sheet metal processing companies. As such, we know that one garment certainly does not fit all.

Why Choose CutPRO®?

• High quality cut resistant clothing is essential in glass and metal handling. Cuts and lacerations can cause rapid blood loss, infection, permanent damage to soft tissues, and even death.

• Not only do manual handling incidents cost firms time and money, they highlight a serious failure in the employers’ duty of care, which can lead to reputation loss, and even criminal prosecution.

• Cheaper alternatives are likely to offer inferior protection, costing you more in replacements and compromising safety.

• Not all cut resistant products offer high levels of tear, puncture or abrasion resistance: significant additional factors for safety.

• It is lightweight, comfortable and fully washable, making it a practical solution to personal protection.
About Cut-Tex® PRO

Cut-Tex® PRO is an ultra-high performance cut and slash resistant fabric, comfortable to wear, fully machine washable and of truly exceptional strength and durability - making it the ideal material for CutPRO® Cut Resistant Clothing.

As you can see below, Cut-Tex® PRO performs very highly in all cut, abrasion, tear and puncture tests:

**Cut-Tex® PRO Performance Chart:**

> **Cut Resistance** - ANSI/ISEA 2016 Blade Resistance Levels A1-A9
> Level A5

> **Abrasion Resistance** - EN 388:2016 Abrasion Resistance Levels 1-4
> Level 3

> **Tear Resistance** - EN 388:2016 Tear Resistance Levels 1-4
> Level 4

> **Puncture Resistance** - EN 388:2016 Puncture Resistance Levels 1-4
> Level 4

> **Cut Resistance** - EN ISO 13997 (TDM-100 Test)
> Level E
CutPRO® Cut Resistant Tops are manufactured using Cut-Tex® PRO, offering outstanding tested and certified levels of cut, abrasion, tear and puncture resistance.

**Product:** CutPRO® Pull Over Top with Half Zip Turtle Neck  
**Model #:** 100210

**Features and Benefits**
- Cut-Tex® PRO is used to provide excellent cut resistance
- Full front, neck and arm protection
- Breathable polyester back
- Thumb holes
- 8” length zip
- Shoulder and elbow patches
- 100% latex free

Additional features available - please contact us for further details
- Logo embroidery

Suitable for professionals working in the following industries:
- Glass and glazing
- Metal
- Ceramics
- Industrial manufacturing
- Recycling

**Material Content**
Cut-Tex® PRO, Polyester, Cotton

**Cut Resistance**
- EN ISO 13997 (TDM-100 Test) Level E
- ANSI/ISEA 2016 Level A5

**Abrasion Resistance**
- EN 388:2016 Level 3

**Tear Resistance**
- EN 388:2016 Level 4

**Puncture Resistance**
- EN 388:2016 Level 4

**Sizes**
- S - 5XL

**Colour**
- Cut-Tex® PRO - Grey Marl
- Piping - Orange
- Polycotton - Grey

**Place of Manufacture**
- EU - CE PPE Regulation (EU) 2016/42

Important Information

- Do not use this product for protection from high speed or serrated blade
- Do not use this product near moving machines or where there is a risk of entanglement
- Do not use this product for food processing
- This product is designed to minimise the risk of injury from potential hazards in the industrial work space (abrasions, cuts, tears and puncture)
- This product is used only for the designated purpose, no item of PPE can provide full protection
- This product is not designed to protect the hands, gloves are to be worn when required
- This product does not protect from hypodermic needles or similar sharp pointed objects
- Care and attention must always be taken when carrying out potential hazardous activities
- Cut-Tex® PRO is an ultra-high performance cut resistant fabric. However, it is not completely cut proof.

Maintenance

- Do not wear this product if damaged, always inspect prior to use
- Do not leave in a contaminated condition, launder immediately
- When not worn, store this product in cool dry conditions away from direct sunlight
- Wash dark colours separately
- Do not wash with fabric conditioner
- Reshape whilst damp
